

Company Health and Safety Policy

As a Company health and safety is a major priority. We aim to create a safe and accident free working environment. We are continuously improving our health and safety performance throughout our operations. We endeavour to maintain full compliance with current legislation and our own company policy.

We Commit to:

- Providing all necessary training and resources to ensure all activities are completed safely.
- Complying with all uk health and safety laws.
- Providing a safe working environment, that protects all individuals.

We encourage all employees to be involved and supportive of safety management.

To meet our commitments we will:

- Identify all hazards and risks associated with our activities and ensure appropriate safety measures are in place.
- Ensure all workplace accidents and incidents are reported and investigated, to try to prevent recurrence.
- Implement and monitor health and safety policies and procedures relevant to our business activities.
- Encourage all employees to contribute to improving our health and safety performance.
- Provide training and advice to all employees to ensure awareness of their responsibilities.

Our employees will co-operate with this policy by:

- Making use of all safety equipment provided.
- Maintaining a tidy and safe working environment.
- Ensuring they comply fully with all procedures and policies.
- Taking care for their own safety and that of others whom may be affected by their actions.

This policy shall be reviewed regularly.
